PIYUSH KUMAR VARMA

+91 9835002675
Kharar, Punjab

varmapiyush864@gmail.com LinkedIn https://leetcode.com/u/Piyush_varma_2912/ https://github.com/piyushGit1229

Skills

Languages: C++(DSA) , JavaScript, SQL

Web Technologies: HTML, CSS, ReactJS, Node.js , Express.js , MongoDB

Tools and VersionControl: Git, GitHub , Postman

Career Objective

Aspiring Software Developer with a strong foundation in Data Structures & Algorithms (C++) and Full-Stack Web Development. Proficient in React.js, Node.js, JavaScript, Git and GitHub, and experienced in building scalable applications. Eager to contribute to innovative software solutions by leveraging my full-stack development skills. Passionate about solving complex problems and creating impactful solutions while continuously learning and growing in the software development field.

Education

Chandigarh University, Punjab 2023-2027
B.E.in Computer Science and Engineering

Karim City College, Jamshedpur 2021-2023
XII(Intermediate) **79.8%**

Gayatri Shiksha Niketan, Jamshedpur 2021
X(Matriculation) **78.6%**

Project Work

- **Sorting Visualizer (2024):** A web-based Sorting Visualizer built with HTML, CSS, and JavaScript that animates how classic sorting algorithms transform an unsorted array into a sorted one. It provides interactive controls to choose algorithms, adjust array size and speed,and observe the step-by-step operations (comparisons, swaps) in real time.with a menu-driven interface.
- **Streamify: Video Streaming Platform(2025):** Developed Streamify, a video streaming platform using MERN similar to YouTube. Users can upload videos, like, comment, and subscribe. Implemented secure JWT-based authentication with refresh tokens across more than 10 protected routes. Integrated Multer and Cloudinary for HD video uploads and automatic thumbnail generation. Designed modular REST APIs using Node.js and Express, following MVC architecture.
- **Chat-Now : Chat application(2025) :** Created Chat-Now, a chat program that uses Socket.io to allow one-on-one conversations with real-time user presence. Secure JWT-based authorization and authentication were put into place to guarantee strong session Validation .TailwindCSS and DaisyUI were used to create a modern, responsive user UI that was tailored for desktop and users.

Certifications

- Certificate in Data Visualisation by TCS.
- Certificate in Team skills on Coursera.
- Certificate in SQL by IBM on Coursera.
- Certificate in Relational Database Administration(DBA) by IBM on Coursera.

Summary

Full-stack developer with a solid foundation in C++ and SQL who specializes in the MERN stack (MongoDB, Express.js, React.js, andNode.js). Created responsive user interfaces, modular backends, and scalable REST APIs for production-level applications. Proficient in data structures, algorithms, and problem-solving , has solved more than 500 LeetCode problems. Dedicated to solving challenging technical problems and creating streamlined, performance-driven web applications.
